

# Fresh Food Country of Origin

## ALDI's Fresh Fruit and Vegetables

At ALDI Australia, we are committed to providing our customers with high quality, fresh food products at incredibly low prices. Independent audits have confirmed that 91% of ALDI's fresh fruit and vegetables are Australian Made.

We only source products from overseas when we can't find the product, quality, efficiency or innovation we seek here in Australia. Due to seasonal changes, we sell a small quantity of fresh fruit and vegetables from international suppliers at various times throughout the year. This ensures we can continue offering high quality products to our customers year-round.

Product	Country of origin	Months sourced overseas
